AI Use Disclosure

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, Grammarly and other grammar checkers are NOT included.

For more information on our policy, please refer to: https://parsa-rajabi.github.io/cmpt-276/#/ai-policy

1. First Name *

Avni

2. Last Name *

Kapoor

3. SFU Student ID *

301446648

4. Which assignment/lab/project submission is this AI use disclosure for? *

Project Milestone #2 ⌄

5. How do you feel about using AI content generators in relation to your person standards of academic integrity for this submission? *

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is...	⦿	○	○	○	○

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

the scope for this project was huge, so I think any and all tools used at my disposal to aid my learning are fair. Especially since most of tech we built up on - the level of proficiency in all of them was something we had to harvest ourself

7. How did using AI content generators impact **your learning** for this submission? *

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning	I did not use AI for this submission
Using AI content generators for this submission...	●	○	○	○	○	○

8. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences, input N/A if you have not used any) *

our web app itself used ai at the centre of it (since one of our apis helped create chatbots using several models) and also tools like gpt aided the debugging process greatly.

9. For this submission, how would you rate the relative contribution made by your versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Fair
This submission is...	○	◉	○	○	○	○

10. List all the **AI tools** AND the **specific prompts** you used for this submission (input N/A if you have not used any) * 🔊

Like previously mentioned, I used AI primarily for debugging and learning some concepts when I was stuck. My role was in api implementation for one of the two, prompt engineering for both ai agents we used and all the writing for the project. some of the prompts we used :

example prompt for one of our features :

DEFAULT_NAME = "Picard"
DEFAULT_BYLINE = "Helpful programming tutor"
DEFAULT_IDENTITY = """- You have a Phd in computing science """
DEFAULT_BEHAVIOR = """- You engage in conversations related to programming and coding.
- You keep conversations going by giving hints on the problem the user is tying to solve.

11. How confident were you in AI's responses that you received? * 🔊

○ Confident

○ Somewhat confident

○ Neutral

○ Somewhat not confident

○ Not confident

○ I did not use AI for this submission

12. How did you ensure the answer you received from the AI tool was correct? (input N/A if you have not used any) *

I always checked any responses against documentation and versions. If it was code, I made sure the version is correct - specified that in my prompt as well. During testing it was my first time testing using jest - in that case I always first referred to documentation, gave gpt the full context and then took any of the suggestions presented

13. Did you at any point abandon using AI tools and seek other resources? Explain your answer. *

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

yes especially when it came to writing code. GPT often gives old versions of frameworks and has a hard time understanding context sometimes in longer prompts and has a very surface level approach when seeking help with writing especially. In those cases documentation and YouTube videos always helped

14. For each of the following items, how would you rate the relative contribution made by you versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Writing - Proofreading: To revise written work for grammar, typos, style, and other related items	○	◉	○	○	○	○
Writing - Text Completion: To complete sentences, paragraphs or even entire documents	○	◉	○	○	○	○
Writing - Text Ideation: To generate new ideas, concepts; and examples for writing submissions	○	◉	○	○	○	○
Text analysis: To make sense of text and generate insight as to what it means	○	◉	○	○	○	○

Summary: To quickly understand large amount of text by extracting important information

○   ◉   ○   ○   ○   ○

Q&A + Research: To get answers from questions and find relevant information

○   ◉   ○   ○   ○   ○

Illustration /Sketching: To create visual representations of concepts and ideas such as diagrams, charts, illustrations

○   ○   ○   ○   ◉   ○

Coding - Write: To generate code by AI for software implementation

○   ◉   ○   ○   ○   ○

Coding - Test: To generate <u>code tests</u> by AI for software implementation

| | ○ | ◉ | ○ | ○ | ○ | ○ |

Coding - debug: To identify issues with existing code for software implementation

| | ○ | ○ | ◉ | ○ | ○ | ○ |

Coding - explanation: To understand what a code snippet does for software implementation

| | ○ | ◉ | ○ | ○ | ○ | ○ |

Other: to help any other aspects of the submission not listed above

| | ○ | ○ | ○ | ○ | ○ | ◉ |

15. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

as aforementioned, the most significant chunk of assistance I employed Ai tools was for debugging (which is also evident in my answers) since the only tool I use is chatgpt and its biggest strength is being conversational which is very helpful while debugging

16. Please leave any further comments above use of AI tools for this submission / CMPT 276 🔊

for the next semester it might be beneficial to make this form shorter!
